Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB3390

This bill is ridiculous and I strongly vote against it. Why can't you take accountability and manage current income taxes etc better instead of asking us to pay more for literally everything?! I grew up in Oregon and I am seriously considering leaving. This gov leadership (or lack there of) has taken Oregon down the drain and your fiscal responsibility is something I can no longer tolerate and if this bill gets passed I will work tirelessly to educate my ignorant friends who aren't involved in state or local government to become more informed of all of your inadequacy and lack of fighting for Oregonian's prosperity and I will pray you don't ever get re-elected.
