

Submitter:	James Moos
On Behalf Of:	myself
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	HB2977

We are very close to making serious improvement to our relationship with wildlife and reducing vehicle collisions. Of all the obligations you have, I hope you can see that our care for the quality of life we provide for wildlife is parallel to our own.

As tourism brings in a lot of money, providing safe passage for us all can only improve the experience visitors and residents will have.

HB 2977 is both progressive and pragmatic.

Please pass this measure for Us, wildlife, and most importantly for future generations.
