Measure, Appointment or Topic: HB2977

On Friday, the Oregon House passed HB 2977 with strong bipartisan support. This bill would provide critical, long-overdue funding for protecting Oregon's native wildlife, restoring habitats, reducing wildlife-vehicle collisions, and supporting efforts to help people and wildlife coexist.

Please support this bill! its imperative, now, more than ever that wildlife has our protections for many generations to come. The pacific nw is a treasure of amazing wildlife and with all the climate changes and human development encroaching on critical habitat we need to do everything we can to support wildlife. thabk you
