

Submitter:

Kathleen Marshall

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB2977

I think it so important in these times for states to take responsibility for their land, wildlife and forest to protect them for now and the generations to come. I live in the forest and know how fragile it is... being around wildlife I think reminds us that we are all part of the planet.. all living on it striving for balance and not domination. Please pass this bill so that wildlife will be protected for our children and our children's children.

thank you, Kathy Marshal
