Measure, Appointment or Topic:

HB2977

I am in strong support of HB 2977 which proposes a modest funding solution for wildlife conservation in this state. Wildlife species are facing so many threats which will continue to be exacerbated by increasing temperatures from climate change. They are in need of our support and our respect for they are inhabitants of this state as well – inhabitants that contribute greatly to our ecosystems and what we claim to all value. Our lodging tax is currently one of the lowest in the country and that makes this a sensible, fair, and logical way to help ensure wildlife is here for them and for all of us to enjoy and cherish responsibly. I implore you to please support this bill for the wildlife species that we share this beautiful state with. Thank you.
