

Submitter:	Jill Brandt
On Behalf Of:	Don't fix what isn't broken
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	HB3390

The Office of the Secretary of State already handles referendum/initiative petition titles and descriptions, and since the SOS office is in charge of elections, this makes sense as that would be the most appropriate entity to provide guidance to citizen legislators on this matter. Moving this to the legislature would create a conflict of interest since they will be the ones ultimately voting on it and could create the titles and descriptions in such a way as to fit their agenda, not the will of the petitioner(s). Absolute NO on HB 3390.
