Senate Committee On Rules

Measure, Appointment or Topic:

HB2977

We need to protect our wildlife in Oregon. Wildlife is under dire pressure from loss of habitat and climate change. Wildlife is what makes Oregon beautiful and a wonder to behold. Last October my van hit a deer west of Sisters. Between 400 and 600 deer die in this location each year. The cost to my insurance company was around \$5000. We need the wildlife overpass that is planned.
