

Submitter: Andrew Smith

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am so disappointed to read that this bill is even under consideration. We are already facing an ever increasing cost of living: Energy, food, property taxes, etc. we do not need additional increases! The state must learn to live within its budget-Plain and simple. Increase revenue by increasing the tax base, not by taxing those of us that already pay more than we should have to.
