This is just nonsense. It's the ONE way that We The People can get our ideas & interests on the ballot. It's FINE with how it's currently done via the SOS.....a non-partisan position. Making it pass through the hands of our partisan Democrat super majority will ONLY most certainly make it so conservative ideas & interests won't get a ballot title. This session alone we see how conservative ideas are not at all listened to, STOP spreading your power & squashing other peoples ideas
