Measure, Appointment or Topic: HB2025

Members of the Committee,

I write to you today as your piggy bank. For years you have treated me as your personal piggy bank. Anytime you want more money for whatever idiotic scheme you have planned, you come and withdraw the money from we, the piggy bank. Again you are coming to the piggy bank, but this time you want more than the piggy bank has. We piggy banks are DONE! We have no more to give. In case you haven't noticed the piggy banks, both business and individual, are leaving the State. I am one of those. I am leaving because I am tired of being your personal piggy bank. I am leaving because I am tired of the regulatory abuse I suffer at your hands. I am leaving because you make law abiding citizens into felons and protect the criminals. Oregon is a beautiful State but she has been raped by the legislature and the administrative state and will soon be on life support, circling the drain.

If you have any common sense left, vote this bill down.

Respectfully
