Measure, Appointment or Topic: HB2025

I strongly oppose this bill. Oregon government is making it hard to even live in this state with all the taxes and new taxes . The fixed income citizens are barely getting and having to choose pay there mortgage or rent or eat. Where is all the bag money, ,lottery, cigarette tax , liquor tax where is that all going Oregon has a spending problem and budget problem and adding more tax to the middle class is not the answer. People are leaving this state as well as businesses our government is pushing everyone out. Maybe that is the democrats plan. I am against this bill and if it passes my family and I will have no other choice but to move.
