Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Imaging being retired and living on a budget. You know longer can afford to buy food so you scrap together what you can to survive the cost of daily living. Imagine having family 1 hour away and you can't afford the fuel to go visit or renew your tags! The average SS check is less than 2,000 a month ! Imagine not being able to pay your property taxes because of how much they have risen. This is over 3/4 of Oregons population living paycheck to paycheck! But I sure see the handouts to the homeless and drug addicts. Please tell me again what have they contributed to this State? Only took! You're out of control on your spending! We have to tighten our belt you should too!
