Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Oregon legislature is trying to ruin the Oregon middle class with this tax package. Oregonians have been taxed to death and every utility has been increased, water, power, sewer, trash. Enough! Oregon governor is trying to steal our kicker money! Enough! Oregon is running citizens and businesses out of Oregon with their big government model! Enough! Please vote no on this bill. Your constituents are speaking up and they can't afford this!
