Measure, Appointment or Topic: HB2025

Please do not advance or pass Transportation Tax Bill 2025. Oregonians can not afford more taxes. Many of us are dealing with unemployment, fixed incomes, rising property taxes, rising insurance rates, and rising cost of living overall. We can not afford this transportation tax. This is especially the case since many projects from the last package remain unstated or incomplete. I'm sorry, I just don't trust that our taxes are being spent wisely. Please do what you can with what you are already collecting.

We voted for you so that you could set priorities. Please do that rather than adding new project after new project.

I sincerely feel like an animal being milked by governments and corporations. Please think of the incremental costs to individual tax payers, vote no on this bill and prioritize projects with the money you are already collecting.
