

Submitter: Kelley Damrow

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HB 2025 will be the final straw for this state. Everything runs on the price of fuel. This will continue to dive this state into a undisiarable state to live in and to visit. Reason like this bill are why people are fleeing and heading for red states. We are all trying to make a living, and its getting harder by the day in this state.
