

Submitter: Valerie Collins
On Behalf Of: 2025 A
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

How disingenuous to use this title for this bill.

We know this is not about auditing ODOT but it is about taxing the citizens of Oregon beyond their means. We cannot continue to spend money only on the Portland metro area and fail to update roads and bridges in rural Oregon, fail to provide sufficient staff to do those repairs and continue to spend our dollars as if there is no end to our pocketbook. We are trying to make a decent life with what we have and it's about time you make do with what you have.
