

Submitter: Kathy Hinton

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As an Oregon resident since 1994, I am absolutely tired of the failed policies of this state. It has become a state that benefits its elected officials with no concern for residents outside of Portland. Those whose views don't line up with our elected officials suffer. It has increasingly been harder to pay bills, put food on our tables, try to save and for many hard working Oregonians almost impossible to buy a home. This state has become an embarrassment to our great nation with its failed policies, ever increasing taxes on all spectrums from gas, food, property taxes, income taxes, and more. Oregonians have had enough of your wasteful spending of our tax dollars. This bill will push Oregonians past their breaking point. WE HAVE HAD ENOUGH! No more taxes! The waste of money within state government is out of control!
