

Submitter: scot rooney

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

people up the canyon and all through out Oregon are suffering. we struggled thru a pandemic, got burnt out by a wildfire, most aren't even financially caught up from those two and now you want to cripple them and literally price them out of Oregon. Just say no please. Oregonians just can't take much more right now. Live within your means like everyday citizens have to.

Thank you
