

Submitter: Megan Stuck

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I urge you to vote no on HB 2025. Oregonians cannot afford added taxes or fees at this time. We are already struggling and this will only add additional burden. Oregon already has one of the highest gas prices in the country and this will only increase our gas prices further when we all need to have some relief in high gas prices. This bill needs to be put aside and not rushed through as the session is in it's final days. It is not a good bill as written and the way some democrats have gone about trying to unethically ensure yes votes by dismissing from committee potential no votes from their own democrat colleague and the rude bullying behavior when speaking to those who speak against it shows that those who are trying to push this bill are doing it the wrong way. I am for an audit of ODOT first to make sure the current funds are being used efficiently and not being wasted, and to see where cuts and adjustments might be made to make them more financially responsible with the funds they already have before putting an additional tax burden on hard working Oregonians and businesses. Please vote no on this bill.
