Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB3390

Oregon does not need the legislature to manipulate ballot titles so that they are not clear on what the measure is about!! Oregon already has strong laws regarding ballot titles and how they are approved this bill takes all those safety's away and would allow gerrymandering by Political Legislative groups! Vote NO on 3390. Don't move it out of committee. Keep Ballot measures free from tampering by political parties!!
