

Submitter: Michael Schlesinger

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I write this in opposition to this bill. I am a 76 year old disabled veteran living on less than 1400.00 a month in social security and VA disability and I cannot afford to live now and this bill will take away any ability for me to absolutely survive. I am afraid for my future because I see on the news the increase this bill that I will have for basic items that I can't afford now, while I watch on the news the loss of federal funds to this state is not going to be receiving and how our politicians are spending money on things that have the people do not want, but destroy the budget by spending money on projects on items the democrats want. Vote no on this bill and save us that are already over our heads in todays economy.
