

Submitter: William Howell

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Committee members:

When is enough, enough? This bill HB 2025 increases our cost of living enormously. This bill takes more from the hard working taxpaying Oregonians that make the state work economically. We have been taxed and regulated to death in Oregon. STOP IT NOW!

We have seen how ODOT has lost billions of our dollars and no one is held accountable. We see money given away to non taxpayers daily. (Illegals, various homeless and of course drug users). When does it stop? Accountability in Oregon government is gone. Past time to stop the madness in spending and "progressive" plans to promote social programs and behavior by your surfs known otherwise as taxpaying citizens. VOTE NO on this bill!
