

Submitter: Jerry Cumiford

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I write in opposition to this bill, as a disabled veteran I live on a limited income and I struggle from month to month. My daughter is a single mother of 4 children and she's not making it on 70K a year. This bill will force us both to make cuts in our budgets that there is nothing to cut from. Gas will get so much more expensive it will put driving out of the question, won't be able to buy a better vehicle because can't afford the fees, there is nothing in this that protects us the taxpayer. I understand the need behind this but what good does it do if it costs us more to use it and we don't? This will put us both in the panic mode just trying to survive. This is bad for the state and bad for the people. Vote no on this bill and help us make ends meet each month.
