

Submitter:

DAWN DiGregorio

On Behalf Of:

Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strong oppose this measure. Quit taking money out of my paycheck to pay for transit that is not used and not safe to ride on. I live pay check to paycheck and need my car to get to work. Do not raise fees on everything no one can afford it. Live within your means. No additional funds should go to ODOT until they prove to the people of Oregin they know the value of our money and can account for every penny they have already been given.
