

Submitter: Mary Hartley-Soelberg

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

To whom it may concern. I oppose this bill. HB 2025, for several reasons, all of which includes taxes that we have not gotten to vote on as citizens of Oregon. This is not how a democracy works by shoving your agendas down our throats! Food costs, gas, housing and jobs that do not support families right now! Children and families are suffering because of the policies that are in place that you continue to unfold and throw them at us! You want to tax us more? Should you do this you can expect Oregonians to leave the state in droves and then what will you do. This is a despicable way to run a state. God knows and He will be your judge. Think about that when you go to bed at night!
