

Submitter: Jeffrey Ley

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Why would we want to trust you with any more money when you prove over and over that you are incapable of doing what you say you want the money for.

You don't take care the the streets we have, just look at all the pot holes on NE 82 that have been there for years.

Let's stop wasting money on light rail and build some new freeways and a 3rd bridge across the Columbia River.

These would actually help over people through the metro area.
