Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose this bill as it raises taxes that far out pace my, and my wifes, nnual salary increases by a considerable amount. We cannot afford these tax increases and if passed we will have no choice but to seek a state with lower taxes to reside. Oregonians have had enough and it's time for the Oregon legislators to listen to their constituents and vote no on this bill. The amount of taxes increases proposed over this legislative session are excessive and unsustainable for the working class. If your goal is to crush the middle class and have us all on welfare then passage of this bill will go along way for towards that goal. Once we're on welfare then what? Who will pay theses taxes? Vote note on this bill!
