Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

I have voiced my opposition to this robbery of the people of this state. At a time when the people of this state can least afford new taxes, the democrats in this state are still insisting on jamming this bill down the throats of their constituents. All to fuel their self centered egos and pet projects. I have news for you, do it. You will find that this bill will hurt the people of this state enough so they will not forget. Political suicide. I hope so. You and your ways of governing have been raising taxes to play your games for to long. Each time you say this will fix the problem. Only to create a bigger one. You have abused the people's trust and put yourself ahead of what is best for your constituents. With your wild ideas about transportation and save the wildlife and climate, and the many other drink the kool-aid beliefs. Enough is enough. You need to recognize that this is not a time or place for games. The people can't afford this bill. This state is already to expensive and you will make it worse. I encourage you to vote no on the matter at hand. And for once show your constituents that you do work for them. Thank you for your time and consideration in this matter.
