Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a life-long Oregon resident, I am saddened by how our legislative process has been headed. It seems most legislators are not willing to hear their constituents. If you were to poll Oregon voters you would see that Oregonians are not in favor of HB 2025. Please consider how this will effect us all. Oregonian's have suffered enough in increasing taxes.
