This is not just a terrible bill. It is not what Oregon wants or needs. It's a bloated bill pipe lining money into a rat infested hole.

Polling shows a big majority want the Republican plan of good maintenance and no raised taxes.

This bill is extremely out of line with Oregon no matter what criteria you use.

There's incredible waste and none of the problems of poor management are fixed.

It appears that Democrats just have ZERO MANAGEMENT SKILL

The bill needs burned and trashed. Not to mention clear threatening and procedure nonsense.. absolutely bunch of arm twisting and worse.

Thank you
