

Submitter: Kenneth Gerig

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am strongly opposed to the transportation bill/tax hike. Oregonians are already taxed too much and this bill is grossly irresponsible in the amount of tax increases and new fees. I am also deeply troubled by some of the antics that have been used by the Democratic party to try to intimidate and silence dissenting politicians from either party. This bill needs to be thrown on the burn pile until the department of transportation gets serious about doing their core job of maintaining the roads fiscally.
