

Submitter: Korey Alexander

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This bill feels like a huge slap in the face to all Oregonian's. Only passing bills without letting the PEOPLE of Oregon have any say. How long do you think people are going to stay in this state? It is becoming more unaffordable each year with measures like this getting passed. Start fixing the real issues and STOP throwing more and more money at ALL the problems this state has. This hasn't fixed anything here in our state in the last 4 decades! It seems as though we are ranked lower in a new category each year!

Mental health: Worst in the nation for children and adults

Housing affordability: 48th

Education: 40th

Teachers: 46th

Financial Prosperity: 48th

If you keep raising taxes and driving out businesses and people, our state will never get better... No matter how much you tax us, the PEOPLE of Oregon.
