

Submitter:

Leslie Schockner

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB2977

I am writing in favor of the passage of HB2977 by the Senate. This legislation is desperately needed to maintain the environmental health of Oregon and its wildlife. Particularly as the climate change is accelerating, we need to step up and help all living things in Oregon to survive, from the salmon, to the bees and especially our soil which nurtures us all. Beavers especially have an important role in maintaining water resources in the dry eastern portions of our state, as well as here on the west side of the Cascades. Please vote for this legislation
