

Submitter: Dale Anderson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HB2025 is absolutely absurd. We Oregonians are already struggling to survive and that struggle seems to be progressively increasing. Government is supposed to serve their residents while protecting and encouraging their well being. Unfortunately, the current Oregon government is doing the opposite. It seems as if they are seeking our demise.

Oregonians need protection from our own government!
