

Submitter: Jonathan Stocker

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I find it absolutely egregious that you people are going to keep raising our tax burdens while doing nothing effective while in office besides grifting the people of Oregon. You people are jokes.

It's been reported that a family of 4 requires an income of over \$250,000 just to live comfortably in Oregon. What are you doing about this besides making that number go up? You're destroying Portland by making it unaffordable to live there, allowing rampant and reckless crime and drug use to occur causing a massive exodus of business. You call this managing the state? I call this failure.

I oppose this measure because the people of Oregon are sick and tired of these politicians' incompetence and grift and want them to stop stealing Oregonians' hard earned money.
