We cannot afford more taxes, especially when the money for all this stuff is already in your greedy little hands, you're just misusing it! Create a real budget with our hard earned money. I'm already looking for an additional part time job, on top of my 40hr/wk job because I am pinching pennies every month. I don't have cable, shopping habits, no car payment, zero luxury items, my debt is under \$2000 and I very rarely eat out. I pay rent, power, car insurance, phone bill, groceries and gas. Only the basics and I still barely make it every month. Most people I know are in the same boat. NO MORE NEW TAXES!!!!
