I have been a life long proud Oregonian, born and raised 56 years! Since 2020, I am no longer proud of Oregon... Our leadership let our city burn, open drug use on our streets and near our schools, lawlessness and our once stunning city is a crap heap, literally! Our leaders literally do not care! I'm actually embarrassed to tell people I am from Oregon. My living relatives who also were born and raised in Oregon, have already left the state! I work 60+ hours a week which pushes me over income threshold and I am required to pay a lot of preschool and homeless tax which really frustrates me as I know my hard earned money working massive overtime pays for others, in most cases, people's poor choices which is incentivized! Now I have to pay a tax on everything involved with driving of which I am required to do for my job! So I literally am being ran out of my own state and will be forced to move because Oregon leadership's ignorant, self serving politics, mismanagement of tax payer dollars and bureaucrats who don't know how to budget! Feels a lot like leadership misappropriation and stealing tax payer money for their own political causes....instead of accountability...solution ... tax more! This has to stop now! PS stop putting more homeless encampments in ST Johns we have enough of them already, start putting them in your own backyards!
