Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose this bill. The taxpayers can not afford this drastic raise in taxes. Things are already unaffordable in this state as it is. This bill will kill the middle class for good in Oregon and force people to move or live in poverty while Salem special interests benefit. Homelessness will skyrocket as will food insecurity for those who are working.

I work two jobs as it is and can barely afford to maintain a modest lifestyle that does not include a vacation, new cars, or other luxuries. I dread having to replace my vehicle if this bill passes.

Do right by the citizens of Oregon and kill this bill. The residents of the state can't afford it.
