Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

To our governing leaders for the state of Oregon. You have not demonstrated in actions that you are qualified to lead this state for the good of the people who have already paid dearly beyond what should be necessary. Trying to rush such a bill through with all of the agenda is a huge red flag in of its self. I cannot support such blatant proposals without a current audit of how funds were used in the past 3 years. The math does not add up! The answer to Oregon's problems is not lack of dollars. It is because of over spending without accountability. Because you can not make funding already available work for the good of the people, No Way am I in favor of any part of this bill, which would become burdensome on the working class who can not afford any more of this nonsense! Your lack of leadership for making Oregon better has been a total failure. . This bill will continue keeping us on the path of failure. We need accountability for how our tax dollars have been spent!
