

Submitter: Dan Wolfe

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

First 14 billion and now 11 billion? Really? How generous....not! I am strongly opposed to this measure and amendment and urge a "no" vote. As an almost 40 year resident of this state, the spending, especially of ODOT, is very bad and wasteful. They have been given millions already for projects that have not even started. Where is all that money? Where is the accountability? Find out where every dollar has gone first before giving then more. You can do better! This bill is not necessary and will bankrupt this State.
