The people of Oregon are struggling as is to make ends meet. Most people are living check to check and we can't afford new taxes. If you can't make ends meet with your current budget, then make cuts. You need a back to basics approach, where is the fiscal responsibility. Management and admin positions are bloated, keep the people who actually do the real work of maintaining pur assets employed and cut where needed. You guys have turned this place into California and are making it unaffordable for people who grew up here. No one wants this bill to go through. It should be left up to the people to vote, but you know it won't pass.
