Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

There is ZERO reason for Oregon families to have to choose between food and pot holes. Zero. If @ORDems and @GovTinaKotek spent taxpayer money responsibly we could have beautiful roads and plenty for our kids to eat. Instead, they spend a billion dollars on their abortion tourist industry and illegal alien housing, education, transportation, and subsistence subsidies - at the expense of Oregon families and infrastructure. Fact: This insane transportation bill is the direct result of Salem refusing to follow federal DEI and sanctuary laws and the loss of federal funds. It is desperation on steroids. This bill will literally bankrupt Oregon families and Oregon democrats could care less. And it may be raining at the moment but the revenue fires will continue to burn hot this summer. It's all about federal aid and bankrupting taxpayers for these people. There must be a federal reconning @POTUS. Our beautiful state is in serious distress.
