I oppose this bill! We are already one of the top taxed states in the nation, Oregonians can not afford this! Everyone I have talked to is against this bill! All sides, all humans! Do better! Vote this out! Stand up for Oregonians! Stand up for our future. If this passes we will be too broke to do anything. The suicide rate will increase as more humans fall in to poverty. Children will be affected as parents have to find more jobs just to afford the basic needs. Vote this bill out! It's a horrible bill for all of Oregon!
