No new taxes! Oregonians are at the breaking point. We absolutely can not afford a single percent increase in our taxes. And you asking for ALOT more than that!

Use the tax money you already receive (one of the highest in the nation, btw) more wisely. Use odot money for roads. Use odot money more equally for who actually pays into it.

We are paying attention and voting trends in oregon are about change. We will dismiss politicians who are tax greedy and cant balance a budget
