

Submitter: Sheryl Kuipers

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I respectfully ask that you vote NO on HB 2025. We are a farming family in Tillamook County. The tax burden this would place on our family would strain our farm. We can't set any of our prices, farmers are already suffering! The fuel costs here are one of the highest in the country. The payroll tax increase would hurt businesses again as did the overtime and pay increases. We are real people with kids and grandkids who work hard to create food for this state and country. I just want to encourage you all to think about the people of your state, the people who would have to pay these new taxes. It's money we work hard for just to be taken from us through new taxes with no real ACCOUNTABILITY.
