

Submitter: Matt Borg

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please consider that as you take increasing percentages of our money/income/life you reduce our ability as farmers to produce. You are gradually destroying livability of a vital portion of our state and reducing the potential for private sector economic success which makes all things possible. Please operate within your means; prioritize prudently as we are forced to do; otherwise you are poisoning the well we all drink from..
