

Submitter: Mary Marine

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB2025. This bill adds so many extra taxes and fees to working families that are already struggling in this state. The cost of living has become so high that it's getting ridiculous to just survive. The state continues to add taxes and fees and is pushing out businesses and workers. I have lived in Oregon all my life and am getting to a point of wanting to relocate to another state. No more taxes. No more fees. Please get back to basics and budgeting the funds you already have taken from us. Do better Oregon!
