

Submitter: L Funk
On Behalf Of: Oregonians
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

I encourage you to vote no on this tax bill. Currently, Oregon citizens are struggling financially. People are working two jobs to make ends meet. Most young adults can't even afford their own home. Oregon has had a kick back, these increases aren't necessary. Legislators need to cut spending in many areas and investigations need to see where money is going. Elected officials work for the people, the people of Oregon do not work for you. Increasing taxes makes us work for you. It's time to do this right thing. America is the land of opportunity. This opportunity is being lost.
