

Submitter: Darlene Stenslie

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a retired citizen of Oregon as is my husband. We are on a fixed income and my husband has Alzheimer's, therefore, money is tight and I need to save what we have for his upcoming care and unable to spend more for day to day cost of living which has already increased at a fast rate. Oregon needs to put our tax dollars where the public needs and wants it instead of spending on non value added areas that only benefit the liberal population of state government.
