

Submitter: Andrew Shirtcliff

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please stop taxing us. We do not need any more tax burden than we already have. Spend less. It's very simple. You represent us, we have already submitted testimony 2 to 1 against the previous version of this bill. For 1 time in my life it would be nice if our representatives actually listened to the people they represent. Stop taxing us!!
